III. The Criminal Scheme

A. Overview

15. 1MDB was created to pursue investment and development projects for the economic benefit of Malaysia and its people. However, between approximately 2009

and 2014, billions of dollars were misappropriated and fraudulently diverted from 1MDB through various means, in part for the purpose of paying bribes to foreign officials. The defendants JHO LOW, ROGER NG, Co-Conspirator #1 and others conspired to launder the proceeds of that criminal conduct in and through the U.S. financial system. These laundered funds were used, in among other ways, to pay bribes to obtain and retain business for U.S. Financial Institution #1, and for the personal benefit of the co-conspirators and their relatives and associates, including, among other things, for the purchase of luxury residential real estate in the United States and artwork from an auction house in New York, New York, and the funding of major Hollywood films.

16. The defendants JHO LOW and ROGER NG, while NG was acting within the scope of his employment as an agent of U.S. Financial Institution #1, with the intent, at least in part, to benefit U.S. Financial Institution #1, together with others, conspired to obtain and retain business from 1MDB for U.S. Financial Institution #1 through the promise and payment of bribes to government officials in Malaysia and Abu Dhabi. LOW and NG, Co-Conspirator #1 and others also conspired to launder funds embezzled from 1MDB, some of which were used to pay bribes to government officials in Malaysia and Abu Dhabi, through financial systems in the United States and elsewhere. As part of the scheme, LOW, NG, Co-Conspirator #1 and others used LOW's close personal relationships with government officials in Abu Dhabi and Malaysia, including LOW's relationship with Malaysian Official #1, to obtain and retain 1MDB business for U.S. Financial Institution #1 through the promise and payment of bribes to these government officials.

17. In the course of the scheme, the defendants JHO LOW and ROGER NG, Co-Conspirator #1 and others obtained and retained 1MDB business for U.S. Financial

Institution #1, including three bond offerings that raised a total of approximately \$6.5 billion for 1MDB in 2012 and 2013. These three bond offerings and related transactions ultimately earned U.S. Financial Institution #1 approximately \$600 million in fees and revenue and resulted in NG, Co-Conspirator #1 and others receiving large bonuses from U.S. Financial Institution #1 and enhancing their professional reputations at U.S. Financial Institution #1.

18. Although the stated purpose of the approximately \$6.5 billion raised by the three bond transactions was to support 1MDB projects for the benefit of the Malaysian people, more than \$2.7 billion was instead misappropriated by the defendants JHO LOW, ROGER NG and others and distributed, in part, as bribes and kickbacks to government officials in Malaysia and Abu Dhabi, including 1MDB Official #1, 1MDB Official #2, 1MDB Official #3, Malaysian Official #1 and Abu Dhabi Official #1 and their families, including Co-Conspirator #3, as well as to other co-conspirators, including NG, LOW, Co-Conspirator #1 and their families.

19. In order to get the deals, the defendant ROGER NG also conspired with other employees and agents of U.S. Financial Institution #1, including Co-Conspirator #1, to knowingly and willfully circumvent the internal accounting controls of U.S. Financial Institution #1 in connection with the three 1MDB bond transactions and other 1MDB business. U.S. Financial Institution #1's internal accounting controls were overseen and enforced by its compliance function (the "Compliance Group") and part of its legal department, referred to internally as the "Business Intelligence Group" (the "Intelligence Group"). These groups worked in conjunction with, and as part of, various committees in reviewing transactions, including the three 1MDB bond deals, for approval. However, the business culture at U.S. Financial Institution #1, particularly in Southeast Asia, was highly

focused on consummating deals, at times prioritizing this goal ahead of the proper operation of its compliance functions.

20. The defendant ROGER NG, Co-Conspirator #1 and other employees and agents of U.S. Financial Institution #1 knew that the defendant JHO LOW played a central role in the bond transactions, including by acting as an intermediary between U.S. Financial Institution #1, 1MDB and other Malaysian and Abu Dhabi government officials. NG, Co-Conspirator #1 and other employees and agents of U.S. Financial Institution #1 also knew that bribes had been promised to these officials to secure 1MDB business for U.S. Financial Institution #1. NG, Co-Conspirator #1 and other employees and agents of U.S. Financial Institution #1 conspired to conceal that and other information from U.S. Financial Institution #1's Compliance Group and Intelligence Group to prevent those groups from attempting to stop U.S. Financial Institution #1 from participating in the lucrative transactions. Based on, among other things, their experience at U.S. Financial Institution #1 and in the region, the willingness of co-conspirators and colleagues to assist them, the high fees that the 1MDB deals would generate for U.S. Financial Institution #1 if the deals were successful, and a system of internal accounting controls at U.S. Financial Institution #1 that could be easily circumvented, NG, Co-Conspirator #1 and others believed that they would have, and they in fact did have, repeated success in concealing LOW's involvement from, and pushing these deals through, U.S. Financial Institution #1's control functions to obtain very lucrative business for U.S. Financial Institution #1, themselves and others.

B. The Defendant ROGER NG and Co-Conspirator #1 Began to Conspire to Circumvent U.S. Financial Institution #1's Internal Accounting Controls and Win Business for U.S. Financial Institution #1

21. Beginning in or around 2009, the defendant ROGER NG began to conspire with Co-Conspirator #1 and others to circumvent U.S. Financial Institution #1's internal accounting controls and win business for U.S. Financial Institution #1. At the time, NG and Co-Conspirator #1 were both agents acting within the scope of their employment on behalf of U.S. Financial Institution #1, with the intent, at least in part, to benefit U.S. Financial Institution #1, and they collaborated on the creation of, and potential fundraising for, TIA, while knowing that the defendant JHO LOW was an adviser for TIA. While working on this deal, NG and Co-Conspirator #1 selectively disclosed to other employees of U.S. Financial Institution #1 that they were working with LOW as an intermediary to secure the deal, because they knew that disclosure more widely could have triggered steps to be taken by certain personnel within the Compliance Group and the Intelligence Group to investigate the business relationship with LOW and possibly jeopardize the deal.

22. During the course of the TIA transaction and afterwards, the defendants JHO LOW and ROGER NG conspired with Co-Conspirator #1 and others to develop business for U.S. Financial Institution #1, including with TIA's successor entity, 1MDB. Notwithstanding LOW's public denials about any involvement with 1MDB during this time, NG, Co-Conspirator #1 and other employees and agents of U.S. Financial Institution #1 knew that LOW remained close to various 1MDB officials and government officials in Abu Dhabi and Malaysia, including Malaysian Official #1, and worked with him for that reason. During the course of his work with NG and Co-Conspirator #1, LOW also specifically requested that NG, Co-Conspirator #1 and others conceal his involvement in 1MDB and U.S.

Financial Institution #1's business, and NG, Co-Conspirator #1 and others continued to conspire to conceal LOW's involvement in their efforts to obtain and retain 1MDB business for U.S. Financial Institution #1 from the Compliance Group and the Intelligence Group.

23. Between in or around September 2009 and in or around March 2011, the defendant ROGER NG, Co-Conspirator #1 and others supported at least three attempts to make the defendant JHO LOW a formal client of U.S. Financial Institution #1. NG and Co-Conspirator #1 supported these efforts because, in part, they believed that LOW would work to deliver lucrative business deals, including from 1MDB, for the ultimate benefit of U.S. Financial Institution #1, NG, Co-Conspirator #1 and others. Ultimately, these attempts were unsuccessful because certain personnel at U.S. Financial Institution #1 within the Compliance Group and the Intelligence Group refused to approve the business relationship between LOW and U.S. Financial Institution #1 based, in part, on concerns that they had about the source of LOW's wealth. Personnel within the Compliance Group and the Intelligence Group communicated the rejection of LOW's application to U.S. Financial Institution #1 to NG, Co-Conspirator #1 and others. Notwithstanding their knowledge about the concerns that had been raised by the Compliance Group and the Intelligence Group about LOW not being a suitable client for U.S. Financial Institution #1, NG and other employees and agents of U.S. Financial Institution #1, including Co-Conspirator #1, continued to conspire with LOW based upon their belief that LOW would help ensure that government officials within Malaysia, including at 1MDB, and within Abu Dhabi would deliver lucrative business deals to U.S. Financial Institution #1.

C. The Defendants JHO LOW and ROGER NG, Together with Others, Won Business for U.S. Financial Institution #1 Through the Payment of Bribes and Kickbacks

24. Throughout approximately 2012 and 2014, the defendants JHO LOW and ROGER NG conspired with Co-Conspirator #1 and others with the intent, at least in part, to obtain and retain business from 1MDB for the benefit of U.S. Financial Institution #1 through the promise and payment of bribes to government officials in Malaysia and Abu Dhabi using, in part, funds misappropriated and embezzled from the 1MDB bond transactions. During this time, and through the course of the scheme, LOW, NG, Co-Conspirator #1 and others laundered hundreds of millions of dollars in funds misappropriated and embezzled from 1MDB and used some of those funds to pay millions of dollars in bribes to government officials to obtain 1MDB business for U.S. Financial Institution #1, in particular, three bond offering transactions underwritten by U.S. Financial Institution #1 for 1MDB referred to as “Project Magnolia,” “Project Maximus” and “Project Catalyze.”

PROJECT MAGNOLIA

25. On or about January 23, 2012, the defendant JHO LOW sent an email to the defendant ROGER NG, Co-Conspirator #1 and a high-ranking 1MDB official to introduce NG and Co-Conspirator #1 to the high-ranking 1MDB official for purposes of discussing the purchase of an asset by 1MDB. In the email, LOW stated, “[p]lease exclude me from the email list going forward.”

26. In or around early 2012, the defendants JHO LOW and ROGER NG met in Malaysia with Co-Conspirator #1, 1MDB Official #1, 1MDB Official #3 and others. The purpose of the meeting was to discuss 1MDB’s proposed purchase of a Malaysian energy company (“Malaysian Energy Company A”), and U.S. Financial Institution #1’s ability to

assist in obtaining financing for the purchase, among other things. During that meeting, NG, Co-Conspirator #1 and others discussed with LOW, among other things, the type of guarantee that 1MDB needed to obtain to make the bond issuance acceptable to U.S. Financial Institution #1 and ultimately agreed on the suitability of a guarantee from Foreign Agency A. NG, Co-Conspirator #1 and others understood that LOW was acting as an intermediary between 1MDB, Malaysian Official #1 and other government officials from Abu Dhabi.

27. In or around late February 2012, the defendants JHO LOW and ROGER NG, Co-Conspirator #1, 1MDB Official #3 and others met in London to discuss the proposed financing. During this meeting, LOW explained that to obtain the necessary support for the financing and the guarantee from Foreign Agency A discussed at the prior meeting with NG, Co-Conspirator #1 and others they would have to pay bribes to government officials in Malaysia and Abu Dhabi, including to Malaysian Official #1 and a high-ranking Abu Dhabi government official, to gain their approval for portions of the transaction. After the meeting, it was understood that U.S. Financial Institution #1 would be engaged by 1MDB to act as an adviser and arrange the purchase and financing of Malaysian Energy Company A.

28. Following the February 2012 meeting, the defendant ROGER NG told another employee of U.S. Financial Institution #1 about the plan to pay bribes to government officials in Malaysia and Abu Dhabi. NG understood and agreed with Co-Conspirator #1 and other employees and agents of U.S. Financial Institution #1 not to disclose this information to personnel within the Compliance Group, the Intelligence Group or the committees within U.S. Financial Institution #1 that would review this proposed bond issuance and other 1MDB transactions.

29. In or around March 2012, 1MDB selected U.S. Financial Institution #1 to be the sole bookrunner and arranger for the \$1.75 billion bond deal, guaranteed by Foreign Agency A, and designed, in part, to pay for the acquisition of Malaysian Energy Company A. This transaction was referred to internally at U.S. Financial Institution #1 as "Project Magnolia."

30. Following U.S. Financial Institution #1's formal engagement to work on Project Magnolia, the defendant ROGER NG continued to conspire with Co-Conspirator #1 and others, including other employees and agents of U.S. Financial Institution #1, to work with the defendant JHO LOW on the transaction.

31. In or around early March 2012, the defendants JHO LOW and ROGER NG, Co-Conspirator #1, various 1MDB officials and others traveled to Abu Dhabi for meetings with officials of Foreign Agency A and Foreign Investment Firm A to discuss the guarantee for Project Magnolia. Throughout that time, NG knew that LOW arranged the meetings with the officials of Foreign Agency A and Foreign Investment Firm A, and that some of these officials, among others, would be paid bribes by LOW, or at his direction, to influence the approval of the guarantee.

32. During this same time, in an effort to win and retain the bond deal to finance the purchase of Malaysian Energy Company A, the defendant JHO LOW also enlisted the assistance of various 1MDB officials with the promise of remuneration. For example, on or about March 8, 2012, 1MDB Official #1 and LOW discussed 1MDB's acquisition of Malaysian Energy Company A via an online chat, during which chat LOW stated he would "[g]ive [1MDB Official #1] big present" when the transaction was done. In the same chat, LOW further instructed 1MDB Official #1 to delete at least one email and other documents he

had sent to 1MDB Official #1, and stated “delete from email and destroy once done.”

Additionally, LOW informed Co-Conspirator #1 that 1MDB Official #3 was being paid a bribe for her assistance in obtaining and retaining the bond deal.

33. The defendants JHO LOW and ROGER NG, Co-Conspirator #1 and others also knew that LOW intended to use funds misappropriated from 1MDB’s bond deal to pay and cause to be paid bribes to foreign officials in Malaysia and Abu Dhabi to influence those officials to obtain the necessary approvals and any additional assistance to execute Project Magnolia for U.S. Financial Institution #1.

34. In or around the end of May 2012, near the closing of Project Magnolia, the defendants JHO LOW and ROGER NG continued to conspire with Co-Conspirator #1 and others to divert some of the funds from Project Magnolia into the bank accounts of shell companies that NG, LOW, Co-Conspirator #1 and others beneficially owned and controlled. At this time, NG, LOW and Co-Conspirator #1 expected to keep some of the diverted funds for their personal use, and understood that other Project Magnolia funds would be used to pay bribes to government officials in Malaysia and Abu Dhabi and elsewhere in exchange for their assistance in obtaining and retaining business for U.S. Financial Institution #1 with respect to the execution of the bond transaction and the purchase of Malaysian Energy Company A.

35. On or about May 20, 2012, Co-Conspirator #1 sent an email asking his close relative for the account details for a bank account in the name of Holding Company #1 (“Holding Company #1 Account”). Holding Company #1 was a shell company incorporated in the British Virgin Islands that was owned by this close relative of Co-Conspirator #1 and was controlled by both Co-Conspirator #1 and his close relative. Co-Conspirator #1 wrote,

“[b]est if they are US\$ accounts. We should also tell the bank that we will receive a transfer.”

36. On or about May 21, 2012, the bond deal known as Project Magnolia closed, earning significant fees for U.S. Financial Institution #1, and resulting in large year-end bonuses paid by U.S. Financial Institution #1 to the defendant ROGER NG, Co-Conspirator #1 and other employees and agents of U.S. Financial Institution #1 who participated in obtaining and structuring the bond deal. NG and other employees and agents of U.S. Financial Institution #1 intentionally structured Project Magnolia, and future transactions, as bond deals rather than other forms of financing, because doing so generated much higher revenues and fees for U.S. Financial Institution #1, improved the bank’s reputational standing in both the Southeast Asia region and globally and provided NG and other bankers with increased remuneration and professional prestige, even though the bond financing was more expensive for 1MDB.

37. U.S. Financial Institution #1 transferred part of the proceeds of the Project Magnolia bond offering via wire to 1MDB’s wholly-owned subsidiary, from a place within the United States to and through a place outside of the United States, including through the Eastern District of New York. At the time, the defendants JHO LOW and ROGER NG, Co-Conspirator #1 and others knew that a large portion of the proceeds of the bond would be diverted to themselves and others, including foreign government officials, through shell companies beneficially owned and controlled by themselves and others.

38. On or about May 22, 2012, approximately \$577 million of the bond proceeds were transferred from the account of 1MDB’s wholly-owned subsidiary to Shell Company Account #1, an account at Foreign Financial Institution A in the name of a

company incorporated in the British Virgin Islands with a name similar to Foreign Investment Firm A, but which was not in fact associated with Foreign Investment Firm A. Although the signatories on Shell Company Account #1 were Abu Dhabi Official #1 and Co-Conspirator #2, the defendant JHO LOW and another co-conspirator controlled Shell Company Account #1.

39. On or about May 25, 2012, approximately \$295 million was transferred via wire from Shell Company Account #1 to an account at a foreign bank in the name of a shell company beneficially owned and controlled by the defendant JHO LOW and a co-conspirator ("Shell Company Account #2").

40. Within three months of the closing of Project Magnolia, millions of dollars of bond proceeds that had been transferred to Shell Company Account #2 were transferred into Holding Company #1 Account, and these funds were transferred via wire to and from the United States. Approximately \$24 million of these funds was subsequently transferred to a bank account beneficially owned by a relative of the defendant ROGER NG.

41. Within one month of the closing of Project Magnolia, approximately \$133 million of the bond proceeds that had been funneled into Shell Company Account #1 was then transferred to an account at Foreign Financial Institution A opened in the name of a company incorporated in the British Virgin Islands and beneficially owned and controlled by Co-Conspirator #3, a close relative of Malaysian Official #1 ("Shell Company Account #3"). Between on or about June 20, 2012 and November 20, 2012, 11 wires totaling approximately \$60 million was then transferred from Shell Company Account #3 to Holding Account #2, an account at U.S. Financial Institution #2 in Los Angeles, California. Holding Account #2 is owned and controlled by U.S. Motion Picture Company #1, a U.S. legal entity owned in part

by Co-Conspirator #3 whose funds, among other things, were used to assist in the production of the film "The Wolf of Wall Street."

PROJECT MAXIMUS

42. In or about May 2012, the defendants JHO LOW and ROGER NG, Co-Conspirator #1 and others began to plan a second bond transaction, known internally at U.S. Financial Institution #1 as "Project Maximus," which was designed, in part, to raise capital for 1MDB to purchase a second Malaysian power generation company. LOW, NG, Co-Conspirator #1 and others knew that LOW and others would and did pay bribes to influence Malaysian and Abu Dhabi officials to obtain the necessary approvals to execute the bond offering. 1MDB also awarded this bond offering, which was structured similarly to the first bond issuance, but with an indirect guarantee from Foreign Agency A, to U.S. Financial Institution #1.

43. As with Project Magnolia, while the defendant ROGER NG, Co-Conspirator #1 and other employees and agents of U.S. Financial Institution #1 continued to work with the defendant JHO LOW to acquire this business for U.S. Financial Institution #1 and to execute the second bond issuance, they concealed LOW's involvement in the transaction from the Compliance Group and the Intelligence Group at U.S. Financial Institution #1 for the same reasons that they concealed his involvement with Project Magnolia.

44. The defendants JHO LOW and ROGER NG, Co-Conspirator #1 and others knew that a large portion of the proceeds of Project Maximus would be illegally diverted to themselves and others, including foreign government officials, through shell companies beneficially owned and controlled by themselves and others. NG knew at the

time that Malaysian Official #1, Abu Dhabi government officials and 1MDB officials, among others, would receive money from the proceeds of Project Maximus that passed through bank accounts of various shell companies beneficially owned and controlled by LOW and others, including Co-Conspirator #1 and his close relative, to influence those officials to execute the bond with U.S. Financial Institution #1. In fact, NG provided direction to Co-Conspirator #1's close relative regarding the transfer of some of these funds. Abu Dhabi Official #1 and Co-Conspirator #3, among others, received some of the funds traceable to the Project Maximus bond issuance.

45. Project Maximus closed on or about October 17, 2012, raising approximately \$1.75 billion for a 1MDB wholly-owned subsidiary, and resulting in substantial revenues and other fees for U.S. Financial Institution #1. U.S. Financial Institution #1 transferred part of the proceeds of Project Maximus via wire to the subsidiary of 1MDB from a place within the United States to and through a place outside of the United States, including through the Eastern District of New York. Thereafter, some of the proceeds from the bond offering were diverted and transferred via wire to a place in the United States from and through a place outside of the United States, and from a place in the United States to and through a place outside of the United States, including through the Eastern District of New York.

46. On or about October 19, 2012, two days after Project Maximus closed, approximately \$790 million of the proceeds of the bond was transferred to and through a series of shell company accounts beneficially owned and controlled by the defendant JHO LOW and a co-conspirator. Some of these funds were later transferred to Holding Company

#1 Account and the accounts of Malaysian and Abu Dhabi officials, including various 1MDB officials.

47. Within one week of Project Maximus closing, approximately \$60 million of the bond proceeds was transferred to Shell Company Account #3. On or about November 14, 2012, an additional approximately \$45 million of bond proceeds was transferred to Shell Company Account #3. Within approximately one day of the November 14, 2012 transfer, approximately \$35.8 million was transferred from Shell Company Account #3 to U.S. Law Firm Account #1, owned and controlled by U.S. Law Firm #1 based in New York, New York. Nearly all of these funds were then transferred approximately four days later to U.S. Law Firm Account #2, owned and controlled by U.S. Law Firm #2 based in New York, New York. These funds were used by Co-Conspirator #3 to acquire a condominium in New York, New York that was beneficially owned by the defendant JHO LOW.

48. Between on or about May 29, 2012 and November 30, 2012, the defendant JHO LOW and others also caused the transfers via wire of approximately \$472,750,000 traceable to the Project Magnolia and Project Maximus bond proceeds from Shell Company Account #2 to an account at Foreign Financial Institution B in the name of a company beneficially owned by Abu Dhabi Official #1 ("Shell Company Account #4").

49. Between on or about May 29, 2012 and December 3, 2012, the defendant JHO LOW and others also transferred via wire approximately \$55 million traceable to the Project Magnolia and Project Maximus bond proceeds from Shell Company Account #2 to the account of a company at Foreign Financial Institution C beneficially

owned and controlled by Co-Conspirator #2 and a close relative of Co-Conspirator #2 (“Shell Company Account #5”).

50. The defendant ROGER NG knew that some of the bond proceeds from Project Maximus were transferred by the defendant JHO LOW or at his request to Holding Company #1 Account in furtherance of the scheme. Thereafter, LOW, NG, Co-Conspirator #1 and others caused some of these funds to be transferred to the accounts of 1MDB officials or relatives of such officials, or to the accounts of shell companies beneficially owned and controlled by 1MDB officials, including 1MDB Official #1 and 1MDB Official #2, in exchange for their assistance in obtaining and retaining business for U.S. Financial Institution #1.

PROJECT CATALYZE

51. In or about November 2012, despite having raised over \$3 billion in the prior 11 months, 1MDB sought to raise an additional \$3 billion through a third bond issuance known internally at U.S. Financial Institution #1 as “Project Catalyze.” This bond issuance was purportedly designed to fund 1MDB’s portion of a joint venture with Foreign Investment Firm A. U.S. Financial Institution #1 was engaged on the project in or around early 2013 and, again, secured substantial revenues and fees from the deal.

52. As they had with the two prior 1MDB bond issuances, the defendant ROGER NG, Co-Conspirator #1 and other employees and agents of U.S. Financial Institution #1 continued to work with the defendant JHO LOW as an intermediary between U.S. Financial Institution #1, 1MDB officials, Malaysian Official #1 and other foreign government officials, and they continued to conceal this fact from the Compliance Group, the Intelligence Group and committees at U.S. Financial Institution #1. Further, although required by

internal policies of U.S. Financial Institution #1, the defendant ROGER NG failed to disclose that he and Co-Conspirator #1 had received a portion of the funds diverted from the prior bond transactions through LOW and that LOW, NG, Co-Conspirator #1 and others had caused bribes and kickbacks to be paid to 1MDB officials and others who were involved in the transactions.

53. The Project Catalyze bond issued on or about March 19, 2013. By or at the direction of the defendant JHO LOW, some of the approximately \$3 billion raised by this bond issuance was transferred to and through a series of transactions to Holding Company #1 Account, which account was owned and controlled by Co-Conspirator #1 and his close relative. These misappropriated and embezzled funds were transferred via wire to a place in the United States from and through a place outside of the United States, and from a place in the United States to and through a place outside of the United States. Some of these funds were further transferred via wire to accounts in the name of entities beneficially owned and controlled by 1MDB officials, including 1MDB Official #2 and 1MDB Official #3. More than \$4 million of these funds were also transferred via wire to a bank account beneficially owned by a relative of NG.

54. Within seven days of Project Catalyze closing, the defendant JHO LOW and other co-conspirators caused the transfers via wire of approximately \$1.2 billion in funds traceable to Project Catalyze to a bank account at Foreign Financial Institution D in the name of another shell company ("Shell Company Account #6"). Within two months of the closing of Project Catalyze, LOW caused a client account to be opened in the name of that shell company ("Shell Company #6") at Art Auction House #1, an auctioneer of high-end artworks based in New York, New York. In approximately May 2013, at auctions held at Art Auction

House #1 in New York, New York, LOW acquired five works of art for approximately \$58.3 million in the name of Shell Company #6. The following month, LOW caused approximately \$58.3 million in funds traceable to Project Catalyze to be transferred from Shell Company Account #6 to Art Auction House #1 to purchase the artworks. Between on or about July 3, 2013 and September 9, 2013, additional funds traceable to Project Catalyze totaling approximately \$79 million were transferred from Shell Company Account #6 to Art Auction House #1 to acquire additional artworks.

55. Following the closing of Project Catalyze, through the end of 2014, the defendant ROGER NG, Co-Conspirator #1 and U.S. Financial Institution #1 sought to obtain and worked to execute several additional transactions with 1MDB, particularly focusing on a proposed initial public offering (“IPO”) of 1MDB’s energy assets (“1MDB Energy”). Throughout the time period of these additional transactions, the defendant JHO LOW and others, including Co-Conspirator #1, continued to pay bribes and kickbacks to certain Malaysian and 1MDB officials and others, including from the proceeds of the Project Catalyze bond and other 1MDB transactions, to influence those officials to award a role for U.S. Financial Institution #1 in the IPO.

56. On or about June 2, 2014, Co-Conspirator #1 and the defendant JHO LOW discussed, via electronic chat, efforts to win a position for U.S. Financial Institution #1 in the 1MDB Energy IPO, including the need to “suck up to” 1MDB Official #2 and to send “cakes,” referring to bribes, to “madam boss.” In prior email correspondence, the defendant ROGER NG, LOW and Co-Conspirator #1 referred to the wife of Malaysian Official #1 as “the Madam.” LOW asked Co-Conspirator #1 if he could transfer money from Shell Account #1 directly into the account of another company incorporated in the British Virgin

Islands and beneficially owned and controlled by Co-Conspirator #1 and his close relative (“Management Company #1 Account”) so that Co-Conspirator #1 could “settle madam cakes 2.”

57. The defendant ROGER NG continued his personal relationship with Co-Conspirator #1 after NG’s departure from U.S. Financial Institution #1, and continued to work with Co-Conspirator #1 on other business ventures.

INDICTMENT SEALING FORM

Case name: United States v. Low Taek Jho, et al.

Reason for Sealing:

The defendants are currently at liberty and located overseas, and the government plans to begin the process of executing their arrest in the coming weeks by seeking their extradition to the United States. The government seeks to seal the indictment to ensure that the defendants do not learn that they are under indictment and to prevent them from fleeing justice to avoid arrest and prosecution. Specifically, neither Low Taek Jho nor Ng Chong Hwa are United States citizens, and are believed to be currently located outside of the United States. The government is concerned that revelation of the indictment at this stage would result in the defendants' flight from justice by, among other things, relocating to, or remaining in, a country from which extradition to the United States would not be possible. Notably, the indictment has been returned well within the applicable statute of limitations and sealing is not requested simply to toll the statute.
